Advanced Eye-Care and Brainwave Technology

Galaxy G1-MAX

Galaxy G1-MAX is OlyLife's next-generation smart wellness wearable, designed to support sleep, meditation, eye care and wake-up routines. It combines multiple technologies in one device, bringing together the eye-care concept of the G-One with the sleep support functions introduced through Bama Air.

With integrated EEG brainwave sensing and OtraLive App connectivity, Galaxy G1-MAX captures brainwave data to support a more personalized experience for every user.

Functions

Sleep	Supports relaxation and helps with the transition into rest and sleep.
Meditation	Promotes a calmer state and supports a relaxation-focused experience.
Eye Care	Provides a dedicated eye-care experience and helps reduce eye strain.
Wake-Up	Designed for a refreshing start and helps you feel more alert.

Technology Inside

- 7.8 Hz PEMF
- EEG Brainwave Sensing
- Heating + Cooling
- Air-Pressure Massage
- Vibration Massage
- White Noise
- OtraLive App Connectivity
- Multi-Function Design

A Smarter, More Personalized Experience

Galaxy G1-MAX connects with the OtraLive App, where EEG brainwave data helps create a more personalized experience. This connection allows the device to adapt to your needs and support your wellness journey over time.

G1-MAX → EEG Brainwave Data → OtraLive App → Personalized Experience

FDA Disclaimer: OlyLife products are advanced wellness devices that are safe, non-invasive, and supportive of overall well-being. While PEMF technology has been trusted since the 1970s and certain devices are FDA-cleared for specific wellness uses, OlyLife products are not medical devices and are not intended to diagnose, treat, cure, or prevent any disease.
